

Spring is the perfect time to give some much-needed attention to your security system. Here are four recommendations to make sure your system is at peak performance.

1. Remove dirt build-up from winter on all outside parts
2. Clean camera domes and lenses
3. Check batteries and cable connections
4. Train new staff members on operating your system

Call or email your Relationship Manager to set up your spring cleaning at (763) 553-1477.
